

During this Season of Creation
be part of . . .
The Diocese of MA
Green Grants Initiative

Sustained drought in Africa . . .
Record-breaking heat in the US . . .
Deadly tornados in Western MA . . .
What can **we** do?

Reduce our parish carbon footprint:*

Congregations can apply for Green Improvement Grants of up to \$10,000 to upgrade energy efficiency of facilities and reduce costs.

Increase Creation-supporting habits:*

Simple Acts of Stewardship Grants (up to \$500) are available for education, programs, and practices that increase sustainability at home, in church, and in the community. Or just share your success stories!

Give generously to the Green Grants Offering

On a designated Sunday between October 2nd and November 26th, parishes are invited to collect an offering to support Green Grants. Please give generously using the form below or donating online
